Celebrating Agriculture

c/o Brooklyn USDA Service Center
139 Wolf Den Road
Brooklyn, CT 06234-1729
860-774-8397 x 109

Dear Friend of Agriculture:

We are seeking your support as we prepare for the **11th annual Celebrating Agriculture** event on Saturday, September 24th from 9 to 3.

This free educational event is open to all. The day is filled with activities; hearty farm breakfast, exhibits, wagon ride through the dairy farm, woodcutting competition, local farm products, entertainment, children's activities and much more.

Your contribution will help us meet the many expenses to make the day possible. We appreciate any amount but encourage you to be recognized on our signs, programs and website as a:

- **Gold Sponsor** \$500.00
- **Silver Sponsor** \$250.00
- **Bronze Sponsor** \$100.00

Our volunteer committee has focused on keeping the event free to the public and to exhibitors by seeking community donations to defray the operating expenses. We also rely on the funds earned through the hearty farm breakfast. We have hosted over 35,000 people over the ten events to date. Please make a tax-deductible contribution to **ECCD** (Eastern CT Conservation District) with Celebrating Agriculture in the footnote and mail it to us at Celebrating Agriculture, 139 Wolf Den Road, Brooklyn, CT 06234-1729.

Celebrating Agriculture is a fun filled day for the whole family. We feel it helps provide better understanding of the presence and importance of agriculture in our region and our communities. We are very proud to have sponsored this very worthwhile event for **11 years** and thank you for your support.

Sincerely,
Linda Auger

Chairman, Fundraising Committee

Celebrating Agriculture Is an agricultural education event showcasing the benefits agriculture provides to the Quinebaug-Shetucket region as well as the challenges farms face today. Agriculture located in the hills of Northeastern Connecticut and South Central Massachusetts lies in what is called the “Last Green Valley” between Washington, D.C. and Boston. Woodstock, Connecticut, as the host of this event, exemplifies a town working with its agricultural industry to maintain agriculture as an integral part in both its economic and environmental future.
